

Simple Flush™ Toilet Fit

The Simple Flush Advantage:

- Advanced dual flush technology fully adjustable to your toilet
- Easy install in minutes – no removal of the tank or flush valve
- 30-50% water savings on any size tank: 1.28, 1.6, 3.5, 5+ gpf

Is Simple Flush Compatible with my Toilet?

- ✓ **Flapper-Type Flush Valve:**
Simple Flush fits nearly ALL residential flapper-type toilets – ANY SIZE FLAPPER

FIGURE 1

- ✓ **Ball-Float Fill Valves:**
Simple Flush fits MOST ball-float fill valves (figure 2). There needs to be space on either side of the overflow tube for the Simple Flush Lifter Assembly.

In some rare cases, it may be necessary to replace the ball-float fill valve with a modern fill valve (as shown in figure 1).
