

A NATURAL CLEAN YOU ONLY GET FROM VIVASPRING

VivaSpring's Vitamin C Shower Filters provide a natural defense against the harsh chemicals and sediment in your shower water. A sediment filter captures rust and impurities while vitamin C dramatically reduces free chlorine. Ideal for those with sensitive skin.

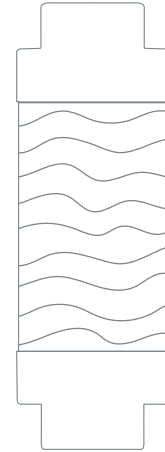

With nine subtle scents and less than ten ingredients, the VivaSpring combines powerful filtration and clean beauty for a hint of spa in your everyday shower.

VIVASPRING

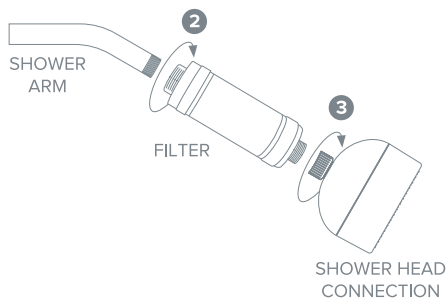

Vitamin C Shower Filter

STANDARD SHOWER INSTALLATION

WARNING: Remove and discard the two end caps on the Vitamin C Shower Filter before installing.

1. Remove existing shower head from the shower arm.
2. Screw the large end of the filter onto the shower arm until tightly secured.
3. Screw shower head onto the open end of the shower filter until tightly secured.

NOTE: If unable to remove the shower head by hand and pliers are needed, place a towel between the pliers and shower head connection to prevent scratching.

NOTE: IF LEAKING OCCURS, USE PLUMBER'S TAPE AT CONNECTIONS.

HANDHELD SHOWER INSTALLATION

WARNING: Remove and discard the two end caps on the Vitamin C Shower Filter before installing.

1. Disconnect handheld shower head from the shower hose.
2. Screw the small end of the filter onto the shower hose until tightly secured.
3. Screw handheld shower head onto the open end of the shower filter until tightly secured.

HANDHELD SHOWER HEAD ALTERNATE INSTALLATION

1. Remove the hose from the base mount on the shower arm.
2. Screw the large end of the filter onto the base mount until tightly secured.
3. Screw hose onto the open end of the shower filter until tightly secured.

NOTE: IF LEAKING OCCURS, USE PLUMBER'S TAPE AT CONNECTIONS.
